

RUPES®

THE NEW D-A SYSTEM MICROFIBER TOWELS

Premium Microfiber Polishing Cloths

BLUE TOWEL

YELLOW TOWEL

WHITE TOWEL

RUPES presents the new D-A System Microfiber Towels; three polishing cloths made from premium microfiber material. Each towel features an embossed BigFoot logo and edgeless scratch-free design. The material, weave, and gram-weight of each towel was selected to compliment the RUPES range of compounds and polishes and provides an outstanding balance of performance and utility. Starting from January 2021, the current 4 towels pack (code 9.BF9010/4) and all the tool kits that include the product code 9.BF9010/4, will be updated with the introduction of the new microfiber cloths. **Each Microfiber Towel will be packed individually inside a flowpack metallic film package to ensure maximum protection against.**

BLUE TOWEL

Microfiber Polishing Cloth

A premium quality, short knap microfiber blue cloth for the removal of compound and polish residues.

YELLOW TOWEL

Microfiber Polishing Cloth

A premium quality, short knap microfiber yellow cloth for the removal of compound and polish residues.

WHITE TOWEL

Microfiber Polishing Cloth

A premium quality, dual-pile microfiber white cloth. One side features a short weave for breaking up compound and polish residues. The other side features a more plush weave for final wipe down and surface inspection.

CARE INSTRUCTION

Keep separate from cotton or other materials.
